Thomas Dolby, IoT Account Executive

Tom leads the IoT offerings at Accruent, focused on Energy management & Sustainability through remote monitoring, predictive maintenance, and autonomous control.

With 9+ years dedicated on data analytics and smart solutions, along with his experience of managing a variety of SME's, Global Corporations and Government departments in multiple countries, he is driving energy and operational efficiency as part of Accruent's core IoT strategy.

Accruent is the leading provider of intelligent software solutions for the build environment, used by organisations around the world to streamline operations, improve productivity, optimise energy efficiency and reduce financial spend.

Rohit Kohli, Workplace Solution Sales

Rohit is Sr Account Executive with the Workplace Solutions team for Accruent, which is the world's leading provider of intelligent solutions for the built environment.

With over 15 years of experience in the software industry and 10+ years within the workplace market, Rohit has a background in helping public and corporate clients with their digital workplace transformation.

He has experience across a range of workplace technologies including resource booking, room signs, kiosks, occupancy & environmental sensor, people counter, and visitor & event management.

In the last 10 years, he worked with many UK Councils, Central Govt, Law firms, and the financial sector across UK and Europe to improve their workplace utilisation and enhance employees' experience and productivity.

10 :15am – 11am

Ian Baker, Head of Workplace

Ian is Head of Workplace Solutions for EMCOR UK, a leading facilities management company and leads the Workplace Solutions team. With over 20 years' experience in the built environment, Ian has a background of property consulting and project management, working as a client, a consultant and on the delivery teams.

As a Senior Manager with experience of delivering high profile and strategic projects across a wide variety of sectors, Ian brings his expertise of using evidence-based management, to create amazing workplaces, where people are supported to do amazing work.

As a strategic thinker and agent for change, Ian promotes workplaces that contribute to an organisation's productivity, employee engagement, health and wellbeing. He is a regular contributor at workplace leadership events, and author of several white papers focussing on people engagement, human productivity and workplace experience.

11.20am – 12:05pm

Alistair Donohew, Director

Alistair is a director with twenty-five years' experience encompassing scientific research, technical consulting, policy as well as time as an educator. As a consultant, Alistair has provided advice to a full range of public and private sector clients across the UK, including government departments, banks and institutional investors, local authorities and regional agencies, and developers.

After leaving university Alistair's career began as a scientific research officer at the British Geological Survey involved in projects funded by NERC, Environment Agency as well as a consortium of European Nuclear Industry Regulators. This comprised work to understand chemistry and fluid flow through engineered and natural materials used for the disposal of domestic and nuclear waste.

Alistair moved into consultancy with CambellReith in 1998 working on environmental assessment, regeneration, and engineering projects. This included contributions to spatial planning and regeneration projects for MOD, housing associations and regional development agencies. Alistair began to study economics part time at Birkbeck, and his work interests took him to three different environmental, economic, and engineering consultancies based in the UK, including URS (now AECOM), PACEC (now RSM UK) and Entec (now AMEC/Wood).

During a ten-year period, Alistair was responsible for managing and delivering projects including M&A and environmental due diligence, economic evaluation/appraisal, economic development, urban regeneration, environmental assessment, sustainable procurement and assessment, engagement, planning, social and economic impact assessment, strategy formation, and feasibility studies.

Alistair's technical background in science, engineering, and economics along with planning provided a strong understanding of fundamental issues associated with sustainable development. From 2009-10 Alistair was seconded to Defra as a policy and economic analyst to support the government's sustainable procurement team assess the impact and inform procurement policy.

Alistair set up Kovia Consulting in 2021, part of the Kovia group of companies, to provide consulting advice on projects covering his knowledge, skills, and experience.

1:35pm–2:20pm

Morwenna Slade, Head of Building Climate Change Adaption

Morwenna is Head of Building Climate Change Adaptation, based in the Technical Conservation team at Historic England. She leads a multidisciplinary team who undertake research, write technical guidance and provide advice and support for a wide range of stakeholders, projects and audiences.

Morwenna is a Conservation Accredited Building Surveyor specialising in adaptation and energy efficiency in traditional buildings with project management, and communications experience gained during a varied career including time spent at the National Trust and the Churches Conservation Trust.

Morwenna specialises in the policy agenda, with a particular focus on climate change, traditional buildings, sustainability and energy efficiency.

IWFM Annual General Meeting 2022

**Thursday, 28 July
London**

The IWFM's Annual General Meeting provides members with the opportunity to engage with the Board and exercise their vote to contribute to the future direction of the Institute.

We are continuing to run our AGM as a hybrid event, where you will have the opportunity to attend either virtually or in person.

[Register your interest >](#)

Are you ready to step up?

Are you due an IWFM membership upgrade? More importantly, are you selling yourself short?

Your grade reflects your career; it demonstrates to employers, colleagues and recruiters your knowledge and experience, and the impact you can make in an organisation. These factors affect your marketability and career trajectory.

If you feel you are ready to step up, please send your CV to engagement@iwfm.org.uk

For more information, log into your IWFM account and click on the 'Membership' tab.

The Institute of Workplace and Facilities Management (IWFM) is the body for workplace and facilities professionals.

We exist to promote excellence among a worldwide membership community of around 14,000 and to demonstrate the value and contribution of workplace and facilities management more widely.

Our Mission: We empower and enable professionals to reach their full potential and have a rewarding, impactful career. Together we create the conditions for the profession to thrive through leading edge thinking, sharing best practice and upskilling our people.

Our Vision: As the pioneering workplace and facilities management body, our vision is to drive change for the future. To be the trusted voice of a distinct profession recognised, beyond the built environment, for its ability to enable people to transform organisations and their performance.

The IWFM was established in 2018. It builds on the proud heritage of 25 years as the British Institute of Facilities Management.
